

MetaBuildWorks

The Dynamics NAV solution for civil engineering companies

MetaBuild is the industry-specific solution for civil engineering companies. Built around the power of Microsoft's Dynamics NAV package, MetaBuild offers superb core functionality, enhanced to address your industry's needs and married to the latest technology.

Designed with the help of users in the industry, MetaBuild helps to run your business more effectively by working the way you do, by mapping onto your business processes. MetaBuild reduces the workload on users, makes them more efficient and reduces cost throughout the business.

INTRODUCING METABUILD

MetaBuild allows you to address all the critical areas of your business in a single, fully integrated solution.

Our solution was created specifically to support the needs of civil engineers.

It offers function covering every area that any construction company might need.

MetaBuild provides industry-specific function for the following – financial management, project management, subcontractor control, customer and supplier management, materials procurement and key performance indicator reporting.

MetaBuild combines construction industry specific functionality with the powerful, core financial accounting and reporting solution, Microsoft Dynamics NAV.

It offers integration with project tools like MS Project and the use of SharePoint to manage documentation.

It also links to mobile devices for use in the field – mobile phones, PDAs and notebooks.

KEY FUNCTIONALITY

The complete offering divides into three areas.

- Finance and administration
- Construction
- eCommerce and Business Intelligence

Finance and Administration

- General, Sales & Purchase Ledgers
- Fixed Assets
- Cash Management, Bank Reconciliation & BACS
- Billing Schedules, Applications & Retentions
- HR, Payroll & Timesheet Entry

Construction

Subcontractor Management

- Subcontract order management

- HTML reporting for e-mailing

eCommerce and BI

This offers users the latest technology in the following areas.

- E-business and E-procurement
- EDI and Biztalk integration
- Workflow & Document Management
- Output to Excel, KPIs & Dashboards

THE BENEFITS OF METABUILD

MetaBuild delivers key business benefits.

- Based on a Windows platform, MetaBuild presents like Outlook working seamlessly with your desktop – making it easy for staff to learn and to use.
- The system is fully integrated, providing instant reporting on any situation to those that need it, when they need it and in the form they need it.
- The automation of key processes offered by MetaBuild reduces administration and removes the need for re-keying of data.
- MetaBuild will help to reduce administration time as many processes are now handled automatically.
- Instant views of customers and suppliers keep users informed of the latest situation on any account, any project and any issue.
