

miraclePAY Lite provides a powerful and flexible solution for recording and calculating your payroll needs in a timely and accurate manner.

## miraclePAY Lite for Microsoft© Dynamics™ NAV

### Introduction

Running a payroll department can be incredibly demanding and complex. At Miracle we understand the challenges faced and have developed our products to help organisations overcome issues such as compliance, obtaining accurate and real-time reporting, ensuring confidentiality, integration, accuracy and flexibility.

We have been developing Payroll and HR solutions for over twenty five years. Our miraclePAY Lite solution is based on Microsoft Dynamics NAV and will simply run as another option on the Microsoft Dynamics NAV menu providing the end-user with true integration.

miraclePAY Lite is a fully functional, well proven payroll that is currently being used by over 400 Microsoft Dynamics customers.

### Product Info

miraclePAY Lite is a powerful and flexible solution based on Microsoft Dynamics NAV. miraclePAY Lite offers a reliable platform for recording and calculating your enterprise payroll needs in a timely and accurate manner.

With miraclePAY Lite, users have a fully integrated payroll module which will not only take care of all

those PAYE and National Insurance calculations but also automatically post to the General Ledger.

miraclePAY Lite conforms to the latest government legislation for Tax and National Insurance and gives users the capability to amend tax rates and NI rates as a result of Government legislations changes.

User definable payment types and deductions make the payroll system flexible to meet most requirements, with the added facility of being able to define which account each pay addition and deduction will be posted to.

Features include multiple pension schemes per company, allowing employees to belong to more than one scheme.

Statutory payments are calculated automatically. The system has full capability for handling all types of Attachment of Earnings.

User definable payroll groups allow any number of separate payroll cycles. Security options make it easy to restrict access to sensitive payroll information.

miraclePAY Lite provides in-depth payment analysis and summaries via standard reports and new reports can be defined using the Report Designer tool within Microsoft Dynamics NAV.

## About Us

Miracle Dynamics is part of the Miracle Group of Companies and we have been providing business and application solutions for over twenty five years. At Miracle we focus on providing customers with a solution that will support them now and into the future, backed up by world class technology and a range of professional services.
